OBJECTIVE

Machine Learning fresher with practical experience in AI systems, computer vision, and real-time voice-based applications. Proficient in Python, supervised learning, and end-to-end project development. Seeking an entry-level AI/ML role to contribute to real-world intelligent systems.

EDUCATION

Noida Institute of Engineering and Technology 2022 – 2026
B.Tech — 71.4%
St. Antony's Inter College 2021 / 2019
Class XII — 87.25% — Class X — 80.8%

TECHNICAL SKILLS

Languages: Python, Java (OOP)
AI / ML: Supervised Learning, Regression, Classification, Feature Engineering, Model Evaluation
GenAI & Systems: LLM Integration, MCP, STT/TTS Pipelines, Real-time Systems, Docker
Libraries/Frameworks: Pandas, NumPy, Scikit-learn, OpenCV, Flask, Matplotlib
Databases: MySQL
Tools: Git, GitHub, VS Code, Google Colab
Core Concepts: OOP, REST APIs, Data Visualization, End-to-End ML Workflow

PROJECTS

Meetly — AI Agent Meeting Connector *Python, WebRTC, Docker, MCP*

- Developed an AI middleware enabling agents to join and interact in live meetings (Google Meet, Zoom, Teams).
- Designed real-time conversational pipeline using STT (Whisper/Deepgram) and TTS (ElevenLabs).
- Achieved sub-second response latency through optimized async processing.
- Built modular architecture and exposed APIs via MCP server; containerized using Docker.

Vehicle Number Plate Detection System *Python, OpenCV, YOLOv5*

- Built real-time detection system with > 90% accuracy using YOLOv5.
- Integrated OCR for robust text extraction under varying conditions.
- Logged structured data (500+ entries/session) into CSV for analytics.

House Price Prediction Web App *Python, Scikit-learn, Flask*

- Developed regression model achieving $R^2 = 0.87$ on housing dataset.
- Implemented feature engineering pipeline to improve model performance.
- Deployed interactive Flask app for real-time predictions.

CERTIFICATIONS

- IBM:** Data Analysis with Python, Python for Data Science & AI
- Infosys:** Machine Learning with TensorFlow, Big Data, Apache Spark Streaming, Spring Security, ReactJS

EXPERIENCE

Deloitte — Technology Intern (Virtual) June 2025

- Worked on simulated consulting problems involving requirement analysis and solution design.
